- 5—Students who are attending a 4-year college or university
- 7—Students who are attending 2-year college or technical school
- 2—Students who entered the work force or the military

## ACT TEST SCORES

The ACT, a college entrance exam, is NOT a test of general academic achievement, but normed on college bound juniors and seniors participating in a high school college preparatory curriculum (four years of math, science, English, and social studies). The ACT is not a required test but 11 of the 14 Potter-Dix seniors did participate. The state average composite score was 21.4, while the average composite for Potter-Dix students was 20.5.

## POTTER-DIX NeSA INFORMATION

The NeSA (Nebraska State Accountability) is a battery of assessments in reading, writing, math, and science designed to survey a student's general academic achievement. Students in grades 3-8 and 11 are required to take the reading and math assessments. The writing assessment is required of the 4<sup>th</sup>, 8<sup>th</sup>, and 11<sup>th</sup> grades, while grades 5, 8, and 11 are required to take the science assessment. The assessments are based on content standards determined by the Nebraska Department of Education. Scores range from 0 to 200. A student's test score should not be treated as an absolute measure of academic achievement, as many factors enter into student testing.

The percentage of students who met or exceeded the state standards in the writing assessment are: 4<sup>th</sup> grade—77.7%; 8<sup>th</sup> grade—62.5%; and 11<sup>th</sup> grade—78.6%.

The chart below illustrates results from the 2015-16 NeSA reading, math, and science assessment results by grade, subject, and scale score.

Grade	NeSA Reading					NeSA Math					NeSA Science				
	State Score	P-D Score	% below	% met	% exceed	State Score	P-D Score	% below	% met	% exceed	State Score	P-D Score	% below	% met	% exceed
